

Hi There,

Thank you for your interest in the healing service I offer.

My philosophy of healing is to help restore your natural ability to heal so that you can achieve an optimal state of balance, harmony, health and happiness on every level of your being. I offer a very holistic and comprehensive treatment plan by integrating all the healing modalities I am trained in with my intuitive ability to facilitate a different and newer kind of healing – the kind that brings healing to the whole being. Healing comes when the body allows new quantum information to be incorporated on the cell and DNA level.

Through BioResonance, we address the “overall stress and toxicity load” eg. heavy metals, infections, foods, EMF and Geopathic stress, scar interference fields, energetic blockages and nutrient deficiencies as well as offer organ and gland support to restore your blueprint for perfect health.

We address the whole being with Reconnective Healing and The Reconnection; in other words healing the physical, emotional, mental and spiritual bodies through connection with Quantum frequencies that carry light, energy and information and a process of meridian Re-Alignment on a Universal scale. It is simply the most phenomenal experience you can gift yourself.

I also offer the Reconnected Life sessions for clearing specific Emotional blocks through an integrative process of Aromatic Kinesiology and Reconnective Healing.

I strongly advise and recommend the home use of Certified Pure Therapeutic Grade Essentials oils (doTERRA) as a self-empowerment tool for low-tox living, cell-level and emotional healing and family wellness. We offer you the education and support on how to use these gifts from the Earth.

**Important:**

#### How many Treatments?

We get excellent results when clients book in for weekly sessions for the first 6-8 weeks if possible, then 4-6 fortnightly sessions and then a few monthly. At this clinic, we have life-long clients who started out requiring weekly sessions, then monthly, then maintenance once every couple of months etc. We journey together – we get results.

The results naturally depend on a few things: how well your body responds to the treatment, how long you have had this health concern for and how well you comply with the suggested treatment protocols.
